

Gay Brown is a very lovely person who is very involved in her job. She is teaching on different levels and likes to adapt her individual lessons to the specific person. Together with her you can discuss the way you like to learn English. Gay Brown has excellent experience in teaching and helps her students to improve their individual level. Gay Brown gave me many useful exercises which I could prepare at home. Besides, she made time for conversation lessons and discussing questions. I improved my grammar and feel really motivated to keep on practising with my own grammar book.
