

Testimonial for Mrs Brown

14th July 2009

Thank you for your sincere effort in assisting me to write better essays for the preparation of my Graduate Australian Medical School Admission Test (Gamsat).

I was born in Malaysia and have been in Australia for more than 7 years. With English as my second language, writing essays has always been something that I struggle with. Approaching Mrs Brown for help has been one of the best decisions that I have made to improve my English writing skills.

My experience with Mrs Brown has been a positive one right from the beginning. I was met at my convenience and all my questions were always answered in an understanding and professional manner. Mrs Brown was excellent in correcting my grammars and I couldn't praise enough for all her patience and great sense of humour which makes the whole tutoring session to be comfortable and promising. I have been very pleased with my results which have shown to be higher than what I was expecting and I would recommend Mrs Brown to anyone who are looking for a private tutor.

Lizzie Liew

3rd year student of University of Western Australia,
Bachelor of Science (Majors in Pharmacology and Physiology)
