

Gay Brown is one of the best tutors I have encountered in a while. She has a lovely, motherly attitude that puts you at ease immediately. Her lessons are always interesting and you leave knowing more than when you came. Gay's tutoring has helped me get employed and improved my English, both written and spoken, drastically.

I highly recommend her to anyone of all ages. Young and old. Her tutoring and efforts have helped my son attain a scholarship at Rossmoyne Senior High School. She has also helped my daughter further improve her knowledge of the English language enabling her to get top marks in tests and assignments.

Gay makes a huge effort to better the learning of her students thereby taking a lot of time out of classes looking up material and coming up with interesting ideas to make tutoring more enjoyable.

These are just some of the great qualities of this wonderful teacher as well as person. Her classes are not half-hearted and you are guaranteed to have a full and fascinating lesson and learning experience.
