

To whom it may concern

Ms. Gay is such a wonderful teacher with a warm, caring qualities.

4 years ago we moved into Perth when my son was in year 3 and she has been his tutor since then.

Together her English teaching skills, she knows how to communicate with the children. The lessons are well designed for him to keep him focused during an hour session. She selects exactly the right material that fits with his English skill and age, to make lessons fun, hence more productive. It was not a surprise that once a week lesson blended well into his daily life and became his fun time. She is also a great mentor of him. The lessons are not just learning English, but also gave him a moment to make himself at home while communicating in English.

We were happy to see his English has been improved significantly, as well as his confidence that he became a part of the local community. He entered high school this year and enjoying his school life and Ms. Gay's lesson is definitely the enabler.

We really appreciate all the supports she gave him, and he would have not fitted well into the community without our fortunate to meet with Ms. Gay.

I highly recommend Ms. Gay as a tutor.
